Name	Work
Initial planning	1d
First draft of report without results	28d
First draft of report results	29d
Finilizing report	3d
Sample from distribution	1d
Testing dist-sampler	2d
Working trivial PF	4d
Refactoring PF	1d
Testing PF	1d
Generate square video	1d
Working framework for statetransition db	7d
Working trivial PF with parameterspace Theta (p,theta,size)	7d
Refactoring PF	1d
Testing PF	1d
Generalize PF (GPF)	3d
Refactoring GPF	1d
Testing GPF	2d
Generate whisker video	4d
Image processing	2d
Refactoring IP	1d
Testing IP	1d
Create tracking models (whiskers,snout, fitness functions...)	10d
Working PF with gwhiskers	10d
Make performance measures for algorithm	7d
Tweak and get performance measures	14d
Analyze the models	14d
Tracking with things in the way (square,gwhiskers,rwhiskers)	5d
Tracking multiple objects (square,gwhiskers/whiskers)	12d
Create data labeling GUI	2d
Label realdata	14d
Working tracking realdata	6d
First draft of oral presentation	2d 3h
Finilizing oral presentation	3d
Train for the oral presentation	2d
